

KEEPING YOU AHEAD OF THE GAME!

## NEWS RELEASE **WEATHERING THE STORM**

We have experienced unprecedented events in recent weeks in our financial markets.

Measures are being considered with the aim on unfreezing the credit markets to aid businesses in their daily operations, as well as giving the housing market a much needed boost. Plans and tactics on how to achieve this are currently being discussed in Congress. Needless to say, we understand your concerns.

As a result of all of this extreme volatility and uncertainty, we have continued to urge our clients to ratchet down their equity exposure and remain cautious. We have positioned our models to respond to current market conditions, and continue to watch our holdings as well as market events with a careful eye. Let us do the worrying for you, and continue to do what we do best. We are positioned to protect our client's money and mitigate risk wherever possible. If at any point you find you have questions or concerns regarding your accounts or the market/economy in general, please do not hesitate to contact us!

We are and will continue to be one step ahead of the game.
